

## Breeding Field Crops

By John M Poehlman

Springer, Netherlands, 2012. Paperback. Book Condition: New. 257 x 178 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.While preparing the first edition of this textbook I attended an extension short course on writing agricultural publications. The message I remember was select your audience and write to it. There has never been any doubt about the audience for which this textbook was written, the introductory course in crop breeding. In addition, it has become a widely used reference for the graduate plant-breeding student and the practicing plant breeder. In its preparation, particular attention has been given to advances in plant-breeding theory and their utility in plant-breeding practice. The blend of the theoretical with the practical has set this book apart from other plant-breeding textbooks. The basic structure and the objectives of the earlier editions remain unchanged. These objectives are (1) to review essential features of plant reproduction, Mendelian genetic principles, and related genetic developments applicable in plant-breeding practice; (2) to describe and evaluate established and new plant-breeding procedures and techniques, and (3) to discuss plant-breeding objectives with emphasis on the importance of proper choice of objective for achieving success in variety...
