

## Efficient Algorithms for Listing Combinatorial Structures

Filesize: 1.96 MB

### ***Reviews***

*An exceptional ebook and also the typeface applied was intriguing to read through. I have got read and i also am sure that i am going to likely to go through yet again once more in the foreseeable future. I discovered this pdf from my dad and i advised this ebook to find out.*

## EFFICIENT ALGORITHMS FOR LISTING COMBINATORIAL STRUCTURES

To read **Efficient Algorithms for Listing Combinatorial Structures** PDF, remember to follow the button beneath and download the ebook or get access to additional information which are have conjunction with EFFICIENT ALGORITHMS FOR LISTING COMBINATORIAL STRUCTURES book.

CAMBRIDGE UNIVERSITY PRESS, United Kingdom, 2009. Paperback. Book Condition: New. 242 x 170 mm. Language: English Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.First published in 1993, this thesis is concerned with the design of efficient algorithms for listing combinatorial structures. The research described here gives some answers to the following questions: which families of combinatorial structures have fast computer algorithms for listing their members? What general methods are useful for listing combinatorial structures? How can these be applied to those families which are of interest to theoretical computer scientists and combinatorialists? Amongst those families considered are unlabelled graphs, first order one properties, Hamiltonian graphs, graphs with cliques of specified order, and k-colourable graphs. Some related work is also included, which compares the listing problem with the difficulty of solving the existence problem, the construction problem, the random sampling problem, and the counting problem. In particular, the difficulty of evaluating Polya s cycle polynomial is demonstrated.
