Outskirts Press, United States, 2011. Paperback. Book Condition: New. 234 x 157 mm. Language: English . Brand New Book ***** Print on Demand *****.This convoluted and frequently, doubted biography is documented and written by me using a database taken from a huge collection of topless bar napkins, paper table menus, racetrack programs, and scrap pieces of paper. This unique paper trail of Carl the Collector s extended life, shared with him over a 60-year period, was filed in shoeboxes by categories such as racetrack, president, concubines, Bella, humorous moments, the money machine, pedophiles, Las Vegas, and The Library of Congress. The Collector s 350-year saga begins when a reclusive 50-year old socially rejected and widowed schoolteacher is confronted with a personal enhancement proposition. The proposition offered would certainly qualify as the absolute existential moment for any human being. To collect or not to collect, that was his decision. The solicitation was offered inside an invisible spaceship occupied with benign shimmering cones. These floating beings are programmed to collect data from all the universes, and they offered Carl some unique enhancements to accept the position. The Collector was a genuine bleeping know-it-all! I am sure the reader will find his somewhat systematic approach to gathering all the collective knowledge that exists on Earth very amusing. Carl did not want to worry about mundane things like money and bills. He quickly set up a compounding money making machine that used racetrack winnings for seed money. In fact, that is where the Collector and I became joined at the hip, and I then became the CEO of his vast empire. The Collector was programmed to be non-emotional, but when it came to eliminating child sexual or physical abuse he became agitated and highly aggressive. You will read how he implemented his diabolical plans...
